

AB RWANDA PLC BASIC TIPS TO PROTECT YOUR ACCOUNT AND PIN ON DIGITAL BANKING PLATFORMS

Use Strong Passwords

Icon: A padlock or a shield with a key.

Choose a password with letters, numbers, and symbols. Don't use the same password for multiple platforms.

Keep Your PIN Safe

Icon: A key or a lock.

Memorize your PIN and don't write it down. Use a random number, not something easy like '1234' or your birth date.

Enable Two-Factor Authentication

Icon: A mobile phone with a security code or a shield with a checkmark.

Turn on extra security, like a code sent to your phone, when logging in.

Watch for Scams

Icon: A warning sign or an exclamation mark inside a triangle.

Don't share your PIN or passwords. Banks won't ask for these by email or phone. Be careful of suspicious emails or texts asking for your details.

Secure Your Devices

Icon: A computer or smartphone with a lock.

Keep your phone and computer locked with a password or fingerprint. Avoid using public Wi-Fi for banking.

Log Out After Use

Icon: An exit sign or a door with an arrow.

Always log out of your banking app or website when you're done.

Check Your Accounts

Icon: A magnifying glass over a document or a checklist.

Regularly check your bank accounts for any suspicious transactions.
